## Technical Data Manual **TractorData.com - Fendt farm tractors sorted by model**

The Vario transmission was first developed in the 1970s, but due to lack of funding it was never seen on a production tractor until 1996, when Fendt launched the revolutionary Fendt 926 Vario. This was the first ever stepless transmission to be launched in the tractor market, and is patented to be the only truly stepless transmission when it was first developed.

Hermann Fendt built the first  
"dieselross" (diesel horse) in his father's  
shop using a stationary engine and an  
old mower in 1928. The Fendt Dieselross  
became a popular tractor and the  
company grew in the 1930s and 40s to  
become a major brand. Fendt's  
innovation, particularly with its Vario  
transmission and Xylon chassis, carried  
the company forward.
