Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars).

Prof. Chang is famous for his well organized general chemistry textbooks. This book is no exceptions. Also the kindle edition is easy to carry and convenient. As a reference purpose, I am fully satisfied with its electric edition. BUT for the students taking the class, the paper edition may be better for the study.
